

## Wellington City 5m Digital Elevation Model Metadata

<b>Name:</b>	Wellington City 5m Digital Elevation Model
<b>Abstract:</b>	DEM created from masspoints captured as part of the 2004 orthophotography orthorectification process.
<b>Purpose of data:</b>	Wellington City Council business
<b>Area of coverage:</b>	Wellington City (based on territorial local authority boundaries)
<b>Date of capture / date created:</b>	Derived from data captured as part of the Wellington City Rural Aerial Photography project 2004
<b>Data type:</b>	Raster
<b>Native data format:</b>	ESRI Grid
<b>Update frequency:</b>	Not updated
<b>Accuracy:</b>	+/- 5m estimated vertical accuracy
<b>Accuracy statement:</b>	Wellington City GIS data has been compiled from a number of sources and its accuracy may vary. This data is provided "as is" without warranty of any kind. The Wellington City Council recommends that you independently verify the accuracy, currency and reliability of any information upon which you intend to rely. The GIS data made available by Wellington City Council may be amended and updated by the Council without notification. There may be significant delays before data is updated to reflect changes in an area.
<b>Image resolution / ground sample distance:</b>	5m
<b>Dataset history:</b>	The DEM was created in NZMG and reprojected into NZTM in 2009
<b>Coordinate System:</b>	Horizontal Coordinate System: NZTM Geodetic Model: NZGD2000 Vertical Coordinate system: MSL (Wellington 1953)
<b>License:</b>	<a href="#">Creative Commons Attribution 3.0 New Zealand</a>
