

Wellington City Suburbs Metadata

Name:	Wellington City Suburbs
Abstract:	Suburbs
Purpose of data:	Wellington City Council business
Area of coverage:	Wellington City (based on territorial local authority boundaries)
Date of capture / date created:	First created in 2003
Data type:	Vector
Native data format:	Arc SDE Geodatabase
Update frequency:	Reviewed by Council annually. Small modifications to suburb boundaries typically occur where there is property subdivision activity on the boundaries of suburbs
Accuracy:	Generally follow road centrelines or property boundaries, occasionally cut across large rural properties
Accuracy statement:	Wellington City GIS data has been compiled from a number of sources and its accuracy may vary. This data is provided "as is" without warranty of any kind. The Wellington City Council recommends that you independently verify the accuracy, currency and reliability of any information upon which you intend to rely. The GIS data made available by Wellington City Council may be amended and updated by the Council without notification. There may be significant delays before data is updated to reflect changes in an area.
Image resolution / ground sample distance:	Not applicable
Dataset history:	<p>Wellington City Council Suburbs were revised in 2003 through public consultations. The new suburb were approved on 21/08/2003 Small modifications have been made since.</p> <p>Background to the 2003 suburb boundary review: Most suburb boundaries in Wellington were last defined in 1967. Since then there have been many changes within the City. The City now includes areas that used to be in Tawa Borough Council and part of Hutt County. Approved suburb names like Bridgetown and Crawford are not being used. There are a number of areas that now have recognizable names that have never been formally approved as suburbs of Wellington, such as Oriental Bay, Aro Valley, Broadmeadows and Houghton Bay. Suggestions have been collected from many community groups and individuals. Using this information, a new map has been prepared and adopted in 2003.</p>
