

Wellington City Tsunami Evacuation Zones Metadata

Name:	Wellington City Tsunami Evacuation Zones
Abstract:	The evacuation zones are designed to encompass the range of inundation patterns for many individual possible tsunami. The use of tsunami evacuation areas/zones has the advantage of simplicity for emergency planning, public awareness and understanding.
Purpose of data:	Civil Defence Emergency Management
Area of coverage:	Wellington TLA's coastline
Date of capture / date created:	December 2009
Data type:	Vector
Native data format:	Shapefile
Update frequency:	Ad-hoc or if spatial/attribute details need to be revised by GNS Science/GWRC or the Wellington Regional CDEM Group.
Accuracy:	n/a
Accuracy statement:	Wellington City GIS data has been compiled from a number of sources and its accuracy may vary. This data is provided "as is" without warranty of any kind. The Wellington City Council recommends that you independently verify the accuracy, currency and reliability of any information upon which you intend to rely. The GIS data made available by Wellington City Council may be amended and updated by the Council without notification. There may be significant delays before data is updated to reflect changes in an area.
Image resolution / ground sample distance:	n/a
Dataset history:	Primary input were the tsunami inundation areas created with GNS Science/GWRC and Wellington Regional CDEM Group analysis. The evacuation zones serve to illustrate evacuation bands into manageable shapes (i.e to follow a road, block of houses etc). First provided to WCC in March 2009, update received in December 2009 to include additional attributes.
Coordinate System:	Horizontal Coordinate System: NZTM Geodetic Model: NZGD2000
License:	Creative Commons Attribution - No Derivative Works 3.0 New Zealand
Additional Notes:	The use of at least two and a maximum of three evacuation areas is recommended for nationally consistent tsunami planning in New Zealand communities. The recommended standard for distinguishing the three evacuation zones on evacuation maps is the use of the colours red, orange and yellow. For more information, visit the Civil Defence Tsunami Evacuation Zones Guideline document
