###### Title

American Community Survey Blk Grp (2009-2013)

###### Edition

First

###### Geospatial Data Presentation Form

vector digital data

### Description

#### Abstract

Block Group level data from the American Community Survey; 5 year average, years 2009-2013. The original census block group boundaries have been adjusted to various Denver GIS data layers to increase the spatial accuracy of this data. Although every effort was made to ensure the accurate rectification of the data, due to geographic problems inherent in the original 2010 census block group data, errors may exist. The data-set does not contain data for any enclaves administered by other jurisdictions that are located within the City and County of Denver's boundary. This data is a sample, not a census. Results should be considered estimates. See American Community Survey website for margin of error information.

#### Purpose

This data set should be used for planning and analysis of activities that are within the City and County of Denver.

### Status

#### Maintenance and Update Frequency

None planned

### Spatial Domain

#### Bounding Coordinates

##### West Bounding Coordinate

-105.109967

##### East Bounding Coordinate
